

**Remarks:**

Reconsideration of the application is respectfully requested.

Claims 1-76 remain in the application. Claims 1-38 are subject to examination and claims 39-76 have been withdrawn from examination.

An Amendment under 37 C.F.R. § 1.116 (the "**Amendment**") was filed in the present case on May 2, 2005. Additionally on May 2, 2005, a Request for Continuing Examination was filed in connection with the present case, to ensure entry of the **Amendment**. Upon review of the claims submitted therein it was determined that the amended claim 1 could be made even more grammatically clear. As such, Claim 1 has been further amended herein.

Applicant incorporates herein all of the arguments made in the **Amendment** on behalf of the patentability of the claims.

In view of the arguments made in the Amendment, and in view of the foregoing, reconsideration and allowance of claims 1-38 are solicited.

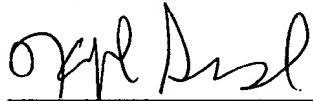

In the event the Examiner should still find any of the claims to be unpatentable, counsel would appreciate receiving a

telephone call so that, if possible, patentable language can be worked out.

If an extension of time for this paper is required, petition for extension is herewith made.

Please charge any fees that might be due with respect to Sections 1.16 and 1.17 to the Deposit Account of Lerner and Greenberg, P.A., No. 12-1099.

Respectfully submitted,

For Applicant
